Java Program

Problem Series

12. LinearSearch Problem

Code

A screenshot of a Java code editor window titled "LinearSearch.java". The code is a simple linear search program:

```
1 // Program 12
2 // LinearSearch Problem
3
4 class LinearSearch{
    Run | Debug
5     public static void main(String[] a){
6         int[] x={1,3,5,7};
7         int k=5;
8         for(int i:x) if(i==k){System.out.print("Found");return;}
9         System.out.print("Not Found");
10    }
11 }
12
```

The editor has a dark theme with light-colored syntax highlighting. The status bar at the bottom shows "Java: Ready" and "Auto Attach: Always".

Output

```
C:\Windows\System32\cmd.e > + ^

D:\system\Java Problem>javac LinearSearch.java

D:\system\Java Problem>java LinearSearch
Found
D:\system\Java Problem>
```
